## Overview 14

# TIME-SAVING STRAP WINDERS

Our strap winders are based on our unique and proven design since 2014 consisting of a **strap-steer** and **winding shaft**. Effortless control of the lashing strap during winding makes rewinding straps child's play, quickly and smoothly.

With a DYNELLO® strap winder you will save time and frustration.

What's more, all our models are portable and mobile, so you're not restricted to winding your ratchet straps in one place. No more dragging straps through mud and dirt.

**MADE IN  
DENMARK**

**NEW**

PRODUCT 2022

### **DYNELLO® fastwinder** RS0302

State-of-the-art strap winder for a cordless drill.

Built-in dry-bearing in the polymer (maintenance free). Stainless steel and aluminium parts. Super lightweight and strong design. Removable strap-steer and winding-shaft (multi size).

Best for 0–50 mm wide straps, max. length 20 m.

**DYNELLO**

### DYNNELLO® Accu Winder RS0301

Tough strap winder for the cordless drill made in stainless steel and aluminium.

Best for 0–50 mm wide straps, max. length 13 m.

### DYNNELLO® Rewinder II RS0102

Battery-powered and handheld strap winder.

Can roll up to 300 lashing straps per charge. Lightweight tool just 750g. Best for 0–50 mm wide straps, max. length 13 m.

Includes two types of chargers, belt clip and instruction manual.

# BESTSELLING STRAP STORAGE SINCE 2017

Our best-selling solution to easy strap storage is a practical **strap clamp**.

The strap clamp is a simple solution to the problem that coiled lashing straps tend to unwind and tangle during transport.

The product and brand **DYNELLO® Clip** is attached to the coiled lashing strap and prevents the strap from unwinding during storage.

The clip therefore ensures that your lashing straps are stored neatly.

# ASSITIVE PRODUCTS

Our range of assistive products can best be described as '**small solutions to big problems**'.

The products are small innovations that solve specific problems during load-securing.

You may not encounter these problems every day, but when you do, our assistive products come in very handy.

## DYNELLO® Spaceball

RS0402

Assistive tool for easy load-securing of tall truck loads and in windy weather.  
Throw the spaceball. Pull the lashing strap over. Safe alternative to metal strap-hook.

### Lashing Magnet 50mm

Magnet attachment for the strap-end. For 50mm wide straps.

NEW

### Lashing Magnet 35mm

Magnet attachment for the strap-end. For 35mm wide straps.

NEW

### Lashing Magnet 25mm

Magnet attachment for the strap-end. For 25mm wide straps.
