EU Declaration of PPWR Conformity for RS0201

pursuant to Art. 39 PPWR in conjunction with Annex VIII PPWR

Version: 1.1 (August 2026)

1 DYNELLO Declaration of Conformity No. 0201

The declaration of conformity applies to packaging material for article no. RS0201 (hereafter 'the packaging').

Article RS0201 is a strap clamp with dimensions of 40 x 128 x 55 mm (W/L/H). The packaging contains an assemble of eight articles.

2 Name and address of the manufacturer of the packaging

DYNELLO ApS

Rudemøllevej 78A

7800 Skive

Denmark

3 Responsibility of the manufacturer of the packaging for the correctness of the declaration of conformity

The manufacturer of the packaging referred to in number 2 is solely responsible for the conformity of the packaging to be specifically assessed with the provisions of the PPWR.

4 Subject matter and description of the packaging

The packaging has the following essential properties:

- The packaging is a tuck end box with dimensions of 128 x 40 x 247 mm (W/L/H)
- The packaging material is Solid Bleached Sulfate (SBS) cardboard with water-based glossy varnish in 350 gsm quality.
- The packaging is produced in Italy.
- The packaging is sales packaging in accordance with Art. 3 (5) PPWR.
  It is used to constitute a sales unit consisting of products and packaging to the end user at the point of sale.
- The packaging is recyclable packaging in accordance with the EN 13430:2006 standard and in accordance with Art. 6 Para. 1-2 PPWR. The packaging is paper/cardboard (Category No. 2) and is assessed to have a recyclability performance grade A according to Annex II Table 3 of the PPWR.

5 Relevant EU legislation, compliance with which is confirmed by this EU Declaration of Conformity

The packaging meets the requirements of PPWR conformity in accordance with Art. 39 PPWR in conjunction with Art. 5-12 PPWR:

5.1 Art. 5 PPWR – Requirements for substances in packaging

The packaging meet the requirements of Art. 5 PPWR for substances in packaging. Solid Bleached Sulfate (SBS) cardboard do not contain any substances of concern. Solid Bleached Sulfate (SBS) uses clean, chemically bleached virgin wood fibers rather than recycled mixes and avoids hidden legacy chemical contaminants.

5.2 Art. 6 PPWR – Recyclable packaging

The packaging meet the requirements of Art. 6 PPWR for the recyclability of packaging. All material of the packaging (SBS) can be 100% recycled. By recycling the packaging, secondary raw materials of sufficient quality are obtained to replace primary raw materials (carton and cardboard fibers).

5.3 Art. 7 PPWR – Minimum recycled content in plastic packaging

The packaging is not plastic packaging. Art. 7 PPWR therefore do not apply to the packaging.

5.4 Art. 8 PPWR – Bio-based raw materials in plastic packaging

The packaging is not bio-based packaging. Art. 8 PPWR therefore do not apply to the packaging.

5.5 Art. 9 PPWR – Compostable packaging

The packaging is not compostable packaging. Art. 9 PPWR therefore do not apply to the packaging.

5.6 Art. 10 PPWR – Minimization of packaging

The packaging meets the requirements of Art. 10 PPWR for packaging minimisation. The dimensions, weight and volume of the packaging are solely due to the requirements for integrity and dimensions of the product.

5.7 Art. 11 PPWR – Reusable packaging

The packaging meets the requirements of Art. 6 PPWR for recyclable packaging. Art. 11 PPWR therefore do not apply to the packaging.

5.8 Art. 12 PPWR – Labelling of packaging

The packaging meets the requirements of Art. 12 PPWR for the labelling of packaging. The packaging contains pictogram(s) with the type of packaging material(s). Taking into account the future regulation of labelling obligations, DYNELLO will publish all relevant information online and provide a QR code for this purpose, which is either part of the labelling of the packaging or can be passed on in the delivery documents.

6 Harmonised standards and other technical specifications

The packaging has been designed and assessed in accordance with Annex IV of Regulation (EU) 2025/40, using the procedures set out in DS/EN 13427:2006 and DS/EN 13428:2006. These standards have been used as the basis for demonstrating compliance with the applicable packaging design requirements pending the publication of harmonised standards under Regulation (EU) 2025/40.

7 Notified Body

Not applicable.

8 Additional information

Compliance with Regulation (EU) 2025/40 has been assessed based on the technical documentation, packaging design assessment and applicable European standards. Supporting documentation is retained by the manufacturer.
